

Teaching Arrangements for 2020/21

Based on current government guidelines our current plan for the start of the 20/21 academic year is to undertake blended learning. One day of the two-day teaching block will be face-to-face and one day will be held on Zoom.

Restricted numbers will be permitted in the building to enable social distancing, therefore only one group will be taught face-to-face at a time.

In line with government advice we will follow the appropriate social distancing requirements whilst in the buildings.

The Matrix building will receive a deep clean with anti-viral disinfectant overnight between groups. Hand sanitiser points will be available.

Further instructions will be issued prior to the start of term detailing entry and exit routes plus other arrangements that will be in place for each group.

Students will be sent information on how to access our VLE (Moodle) and how to access Zoom for the online learning day prior to the start of term.

These teaching arrangements will continue until government advice is updated. If local lockdown occurs, or if a whole group have to self-isolate then both days will be taught via Zoom.

Teaching times will be 9.30 – 5.15 on both days.
